Training Course 2. Acquiring Intermediate Skills

5. How to stay organized in SketchUp

5.1	Creating groups.....	10
5.1.1	Sticking and unsticking	10
5.1.2	To create a group	11
5.1.3	Explode groups	12
5.1.4	Editing a group	12
5.1.5	Making groups inside other groups	13
5.1.6	Use groups for cutting other surfaces	15
5.2	Creating components.....	16
5.2.1	To create a component and making multiple copies	17
5.2.2	Editing a component	19
5.2.3	Making a component unique	20
5.2.4	Exploring the Components Dialog Box. Your Model Library.	21
5.2.5	Making your own doors and windows and inserting them into a thick wall	23
5.2.6	Hiding a component	25
5.2.7	Placing the component on a two-faces wall	26
5.2.8	Saving your component	28
5.2.9	Creating your own collection for future use	28
5.2.10	Creating symmetric components	29
5.2.11	Exploring the Components Dialog box. Get Models from the 3D Warehouse	34
5.2.12	Scaling components	36
5.2.13	Dynamic components	36
5.3	The Outliner. Keeping your groups and components organized.....	40
5.3.1	Finding and selecting objects	41
5.3.2	Using the Outliner to control visibility	41
5.3.3	Changing the nesting order	42
5.3.4	Naming groups and components within the outliner	43
5.4	Layers	43
5.4.1	Creating additional layers	44
5.4.2	Moving geometry between layers	44
5.4.3	Controlling the visibility of layers	45
5.4.4	Keeping track of layers with color	45
5.5	Solids	45
	Practice Chapter 5.....	45
	1. Draw a coffee table	48
	2. Create a wall niche	52
	3. Create an art gallery	55
	4. Using Follow Me inside a group	67
